

# Sićevo adventure

*Get to know Niš and its surroundings. Look at the beauties of the imposing Sićevačka gorge, which due to its position and geomorphological characteristics belongs to the most beautiful gorges of our country. The river Nišava cut its bed between Suva planina Mountain and Svrljiške planine Mountains and thus carved the Sićevačka gorge. High walls of limestone, caves and ditches, diverse biodiversity, beautiful lookouts, and rich cultural and historical heritage, are just a part of what this gorge offers.*

## TOUR PLAN

Departure from Niš in front of the hotel at 09:00 a.m. Accompanied by a local guide, we head east towards Pirot and after a 30-minute drive we arrive in the village of Sićevo, which is located at the beginning of the Sićevačka gorge. In the village itself, we will visit the viewpoint, which offers a view of the gorge walls and Nišava in the part where the hydroelectric power plant built in 1908 is located.

After that, we will start a walking tour for an hour along the perimeter of the rocks and reach a cave with an entrance about 25 m high. We will enter this cave in an interesting way - going down the rope into it. As you descend, you will enjoy the view that on one side shows the hatch of this cave, and on the other side offers a view of the wild surroundings of this part of the Sićevačka gorge.

After visiting this place, we will climb the steep cliffs and return to the village of Sićevo. Return to Niš in the afternoon.
