

Rafting on Tara River

General information

Tara – the most beautiful and exciting river in Europe. On its 145-kilometer journey from the Komovi Mountains, it has carved a canyon nearly 100 kilometers long and 1.3 kilometers deep.

The Tara Canyon is the second deepest in the world (right after the Grand Canyon of the Colorado River), but in terms of beauty, it undoubtedly ranks first.

Thanks to its crystal-clear water (drinkable along its entire course) and exceptional biodiversity, including many endemic plant and animal species, Tara is listed as a UNESCO-protected area.
