This interesting country occupies the southern part of Europe and, due to its incredible wild nature, presents a pearl of the Balkan Peninsula.

A relatively small area has been "mercilessly" rewarded by nature with all kinds of beauty, so it is interesting to everyone, especially lovers of wild nature, which makes it a real tourist destination.

The natural beauty of Montenegro, the beauty of its mountains, rivers, canyons, lakes, forests, cities, the Adriatic coast - make it special and exceptional. It is so small, so they say that you can visit all country in a week, but if its hills were "flattened out" - it would be the largest country in the world!

And one more thing - this is the only country in the world that, due to its natural beauty, could be declared as a national nature park under the protection of UNESCO. So far it has been done with 50% of its territory!

TOUR PLAN

I DAY: NIŠ – KOPAONIK – JABUKA – PLJEVLJA – ĐURĐEVIĆA TARA – ŽABLJAK

Departure from Niš at 08:00 a.m. Travelling through Serbia via Kopaonik Mountain and Pešter to Montenegro with stops along the way for rest and border formalities. Arrival at Durmitor National Park. "ZIP LINE" (cable ride) across the Tara Canyon, the deepest canyon in Europe. Arrival in Žabljak. Accommodation in boarding-type apartments. Dinner. Overnight stay.

II DAY: NP DURMITOR – BOBOTOV KUK

After breakfast transfer to Sedlo (Seddle) pass (1907 m). Departure for a hiking tour to Bobotov Kuk (2523 m), the highest peak of Durmitor. The final part is exposed, secured by cable ropes, and requires extreme caution. From the top there is an incredible view of the surrounding peaks and mountains in the distance. This tour lasts about 7 hours, depending on the readiness of the group. After the time spent on the top, return to Sedlo. Transfer to Žabljak. Dinner. Overnight stay.

III DAY: NP DURMITOR – CRVENA GREDA – JABLAN LAKE – ŽABLJAK – KOPAONIK – NIŠ

After breakfast transfer to Bosača village, where the hiking tour to the Crvena Greda peak starts. The ascent starts immediately from Bosaca and the Jablan lake can be reached in about 1.5 hours. The lake is located 1,800 meters above sea level and is home to an endemic species of mountain amphibian - the Triton. At the lake itself, we take a break before the final ascent, which leads first through a rocky area, then through juniper and low evergreen vegetation. Depending on the conditions and the group, you can reach the top in 2 hours. The view from the top offers an excellent panorama of the main peaks in the Durmitor massif. Break at the top for rest and lunch. Return along the same path as on arrival. Packing equipment and preparations for departure to Serbia. Arrival in Serbia in the late evening hours. End of the program.
